## The Stellar Slotted Head Screwdriver

- Designed by and for craftsmen to deliver the most turning power
- Made of superior materials for strength and durability
- Backed by an iron-clad, lifetime guarantee

The grooved tip of the Stellar screwdriver prevents slipping and delivers maximum gripping power for any depth slotted screw.

The shaft is made of exceptionally hard, tempered steel that won't bend or break even under extreme force, and it won't rust ever. It is embedded in the handle and extends 4" to the bottom of it for the highest possible strength and durability.

The grip is a molded rubber coating for superior grip and comfort.

### Our iron-clad, lifetime guarantee

If your screwdriver ever breaks or is damaged in any way, for any reason, at any time, we will replace it, no questions asked.

## Specifications

### Overall

- Length: 8½"
- Weight: .45 lbs
